

Wireframe Document

New And Old Book Shop

I. Introduction

The wireframe document presented here outlines the visual representation of the user interface for “New And Old Book Shop” Project. Wireframes serve as blueprints for web page layouts, illustrating the structure and functionality of each page within the system. The wireframes are designed to facilitate the development process by providing a clear overview of the user journey and interface components.

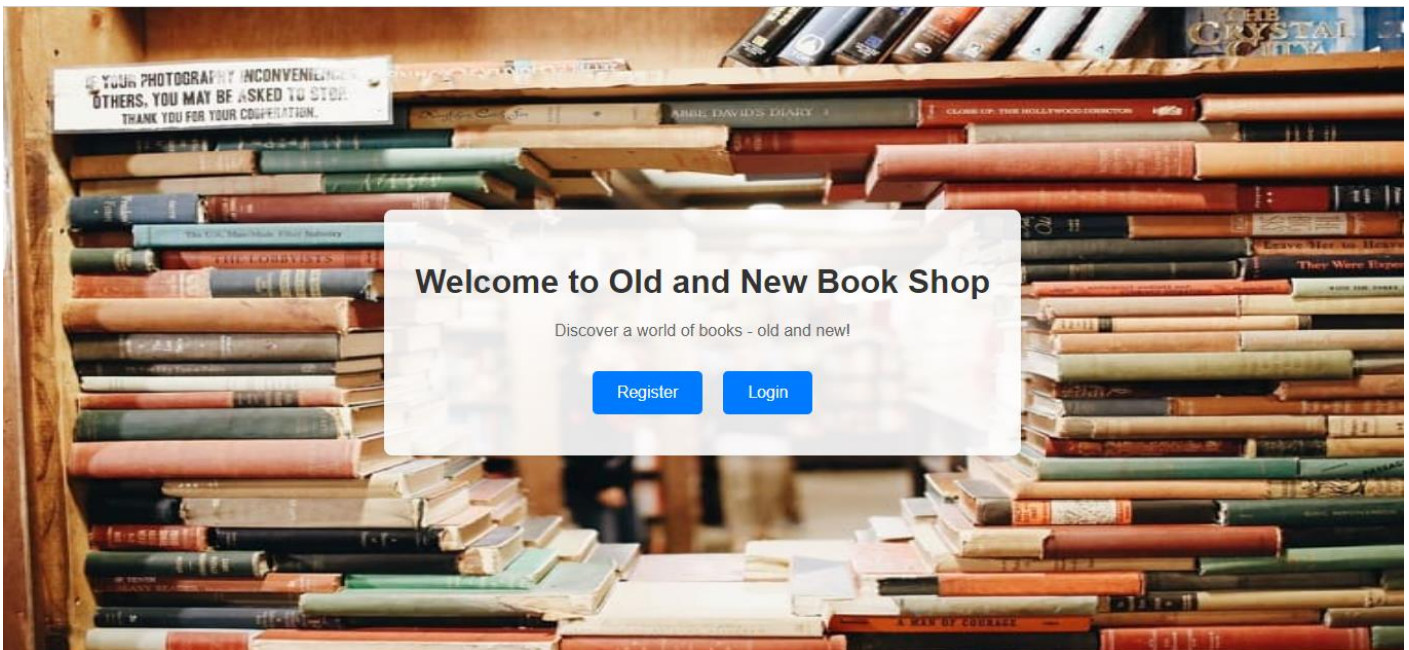

The wireframes cover essential pages such as the Landing Page, Registration Page, Login Page, Main Menu, Buy Book Page, Sell Book Page, User Profile Page, and error pages like Transaction Failed and Book Upload Failed. Each wireframe includes the header section with the site logo and navigation elements, main content areas with relevant forms or listings, and action buttons for user interactions.

II. WireFrame Of All Pages:

1. Landing Page Wireframe:

Main Content:

- Welcome message and small quote of the bookstore.
- Prominent call-to-action buttons for Register and Login.

2. Registration Page Wireframe:
